

HIGH PROFILE METAL OVER METAL REROOF SYSTEM

A retrofit roof system utilizing the proven performance of the MR-24® standing seam roof system.

EFFICIENT INSTALLATION WITH NO DOWN TIME

The High Profile Metal Over Metal System by Butler Manufacturing™, allows for the easy installation of the MR-24® standing seam roof system over an existing standing seam or through-fastened rib type roof with a minimum roof slope of 1/4":12".

ASSURE LASTING DURABILITY

The MR-24 roof panels used on this system are permanently seamed together with a full 360° Pittsburgh double lock seam to assure weather-tightness and long-term performance with minimal maintenance expense.

CLEAN LINES WITH ADDED STRENGTH

The MR-24 roof clips, installed to factory punched holes, securely attach the roof panels to the new supporting structural members with stainless steel tabs roll-formed into the panel seam. Stainless steel tabs are 35% stronger than comparable carbon steel standing seam tabs. The clip design will accommodate expansion and contraction movement in roofs up to 500 feet wide.

A COMPLETE LINE OF ACCESSORIES

The High Profile Metal Over Metal System includes a complete line of accessories designed specifically to work with the MR-24 roof system.

TESTED FOR WIND UPLIFT

The MR-24 roof system has a UL class 90 wind uplift rating and has been tested in accordance with ASTM E 1592, and is listed in the Factory Mutual Approval Guide with various wind uplift ratings.

HIGH PROFILE METAL OVER METAL ROOF SYSTEM

KEY BENEFITS

- ✓ Installs over existing roof with little to no interruption to the business under the roof
- ✓ Utilizes the MR-24® roof system to assure weathertightness
- ✓ Accommodates thermal expansion and contraction with the MR-24 roof clips
- ✓ UL90 rated for wind uplift resistance
- ✓ FM Global Approved
- ✓ Includes a complete line of specifically designed accessories

BUTLER OFFERS YOU MORE

Butler Builders provide complete construction services with single-source responsibility

- Reputable professionals with extensive knowledge of local building codes

Maximize your building's performance with a complete Butler® system solution

- Innovative structural, wall, and roof systems
- Precision engineered for seamless integration
